Volume 18 Contents

January

Editorial 1
On the metabolism of Triose-phosphates in Photosynthetic Cells. Their Involvement on the Traffic of ATP and NADPH. A.A. Iglesias 2
19th FEBS Meeting, Rome, July 1989. Educational Symposium 6
Difficulties in Learning and Teaching of Biochemistry. F. Vella 6
Difficulties of Teaching Biochemistry in Italy (Abstract). A. Guerritore 8
Laboratory Practical Classes in Biochemistry Courses. E.J. Wood 9
Graphical Representation of Michaelis–Menten Kinetics: Analysis of Initial Rate Data Through a Difference Equation. P. Ascenzi, G. Amiconi, F.A. Bassi, M. Coletta, R. De Cristofaro and E. Di Cera 13
Intramolecular Interactions in Macromolecules with Functionally-linked Heterotropic Sites. M. Coletta, P. Ascenzi, G. Amiconi, M. Bolognesi, M. Guarneri and E. Menegatti 14
Association of Biochemistry Grades with Subsequent Performance in Pharmacology and Overall Performance in a Nigerian Pharmacy School. H.K. Wanashie and I. Abdu-Aguye 16
Biochemical 'Stacks': a Hypercard-based Software Tool to Teach and Learn Biochemistry. F. Savini and A. Colosimo 17
Using Computers to Teach Biochemistry in Jamaica and the UK. A.G. Booth and A.G.M. Pearson 18
Biochemical Education in Zimbabwe. F. Vella 20
Towards an Application-Oriented Biochemistry Curriculum. K.M. Abu-Salah, O.S. Al-Attas, A.S. Al-Duhaiman, A.M. Gorban and A.A. Al-Jafari 28
An Integrated Approach for Teaching the Biochemistry of Respiration. C. Curti 31
The International Union of Biochemistry Committee on Education 32
Experimental Presentation in a Lecture: Basic Processes of Haemostasis Demonstrated by Using a Modified Slide Projector. J. Lüthje 33
Ionic Strength and the Dissociation of Acids. C.D. Kennedy 35
The Role of the Lecturer in Teaching Biochemistry in Underdeveloped Countries. O. Chude 40
Textbook Error. S.K. Singla 41
International Union of Biochemistry Fellowships for Attendance at the 15th International Congress of Biochemistry, Jerusalem, Israel, August 4–9, 1991 41
Biochemistry Through Cartoons — Understanding Enzymes. S. Tayyab 42
Experimental Section
Imidazole Binding to Met-Haemoglobin — a Convenient Experiment for the Illustration of Multiple Equilibria. T. Brittain 44
Simple Determination of Gradients on Recorder Paper and Conversion to Appropriate Units. S. De Meillon 46
Coupled Enzyme Systems: Exploring Coupled Assays with Students. M.L. Uhr 48
Letters to the Editor 50
Book Reviews 51
Microcomputer Software Review 58
Lexicon 59
Monitor 60

April

Editorial 61
The Biochemistry of Alcohol Metabolism — A Brief Review. C. Bullock 62
Minireview Compendium 66
Proteases Cathepsins — A View. S.K. Agarwal 67
Biochemical Education in South Africa 73
Biochemical Education in Ecuador 79
Learning Biochemistry at the Mastery Level — Introductory Biochemistry at The University of Michigan. R.E. Beyer 82
RGD — Tutorials Teaching on Fibronectin. E.J. Wood 87
Teaching Health and Safety. J. Harland and J. Bridson 90
Advantages of a Medical Biochemistry Department to Medical Education. O. Chude 91
The Glucose Bowl: Carbohydrate Metabolism Can Be Fun. M.Y. Mazzotta 93

Experimental Section
Separation of Fungal Cellulase Components. M. Slaytor and J. Johnston 95
The Adaptation of an Ion Selective Electrode (ISE or Biosensor) for Use in the Estimation of Sodium Activity (Concentration) in Serum or Plasma. J. O'Mullane 96
Simple Enzyme Models in Teaching. J.L. Howland 98
Fluorescence Quenching of Albumin. A spectrofluorimetric experiment. M.T. Montero, J. Hernández and J. Estelrich 99
Enzyme Kinetics — The Steady-State Observed. P.D. Buckley, L.F. Blackwell, M.F. Dunn and J.P. Hill 101
Book Reviews 103
Lexicon 107
Monitor 108

July

Editorial 109
Glycoprotein Biochemistry (Biosynthesis) — A Vehicle for Teaching Many Aspects of Biochemistry and Molecular Biology. C.R. Cole and C.A. Smith 110
A Unified Description of Structural Levels in Biomolecules. A. Macarulla, A. Marino and M.T. Macarulla 123
The Hunt for the Shunt. M. Saffran 125
A Simulated Computer Literature Search Laboratory using PC-File+. P.M. Barling and G.K. Scott 127
Situation Questions for the Training and Evaluation in Biochemistry of Medical Students. A.E. Gubareva, S.A. Fedorov, L.V. Avdeeva and T.L. Aleinicova 130
An Operational Definition of the Steady State in Enzyme Kinetics. E.A. Barnsley 131
The Evolution of the Language of Molecular Genetics. P.M. Goodwin 133
Nomenclature Committee of IUB and IUPAC–IUB Joint Commission on Biochemical Nomenclature Extract from 1989 Newsletter 135
Experimental Section
A Review of Enzyme-Immunoassay and a Description of a Competitive Enzyme-Linked Immunosorbent Assay for the Detection of Immunoglobulin Concentrations. R. O'Kennedy, M. Byrne, C. O'Fagain and G. Berns 136
Practical Molecular Biology for Students: An Integrated Approach to Teaching Basic Techniques. B.D. Hames, S.J. Higgins, E. McIntosh and G.E. Blair 141
Restriction Enzyme Mapping: A Simple Student Practical. S.J. Higgins, B.D. Hames, E. McIntosh and A. Colman 144
Western Blotting with a Concanavalin A-Horseradish Peroxidase Conjugate. E.E. Snyder and R. Fall 147
Microcomputer Software Reviews 149
Book Reviews 151
Noticeboard 158
Lexicon 159
Monitor 160

October

Editorial 161
Elastin: A Brief Review. R.A. Anwar 162
The Concept of Creativity Among Biochemists. D. Grynszpan and L. De Meis 167
Biochemistry is a Difficult Subject for Both Student and Teacher. E.J. Wood 170
Molecular and Cellular Biology: An Integrated Course of Biochemistry for Medical Students. J. Carreras 172
Crossroads of Biochemical Education in Portugal. M.C. Lechner 176
The Teaching of Nutritional Biochemistry, Clinical Biochemistry and Toxicology in Cuba (Poster Presentation). O. Carrillò, C. Zaldivar, M. Sotolongo, M. Lee, G. Hernández and A. Vidal 179
Teaching Intermediary Metabolism to Undergraduate Students (Poster Presentation). L. Pereira-Da-Silva 180
The Training of Brazilian Biochemists in Brazil and in Developed Countries: Costs and Benefits. L. De Meis and P.H. Longo 182
Teaching To Do or Teaching About. B. Charlton 188
A Comparison of Two Styles of Program for CAL. J. Carrington 190

A Typical Curriculum for the Bachelor of Science Degree in Biochemistry/Molecular Biology at US Colleges and Universities. R.F. Boyer and J.K. Zimmerman 193
Oxidation States of Carbon as Aids to Understanding Oxidative Pathways in Metabolism. R.W. Hanson 194
Noticeboard 196
Experimental Section
Protein–Protein Interactions in Membranes: A Simple Practical Laboratory Class for Advanced Students of Biochemistry and Molecular Biology. A Garcia-Sastre, J. Corral, J.A. Cabezas and E. Villar 197
Nature of Artifactual Bands in the Electropherograms of Malate Dehydrogenase Isoenzymes. J.L. Gelpí, S. Imperial, A. Mazo, M. Busquets and A. Cortés 200
Isolation and Spectrophotometric Characterization of Photosynthetic Pigments. R.F. Boyer 203
A Simulation of Radioactive Tracer Flow. D.S.T. Nicholl and P.C.L. John 206
Microcomputer Software Reviews 209
Letter to the Editor 211
Book Reviews 211
Lexicon 219
Monitor 220
